

# Dongwoo Chung

hellothere@dongwooc.com — dongwooc@cita.utoronto.ca — <https://dongwooc.com>

**US phone:** +1 856 617 1042 — **Canadian phone:** +1 365 442 3542

**Mailing address:** 60 St George St, Rm 1404D, Toronto ON M5S 3H8 — **Citizenship:** USA

## EDUCATION

---

**PhD in Physics**, Stanford University 2014–2020

*Thesis:* Line-intensity mapping with the CO Mapping Array Pathfinder and beyond

*Advisor:* Prof Sarah Church

**AB in Physics**, Princeton University (*magna cum laude*) 2010–2014

*Thesis:* Characterization of a microwave SQUID multiplexer *Advisor:* Prof Lyman Page

## RESEARCH

---

*Interests:* spectral line-intensity mapping; cosmic star-formation history, galaxy formation, epoch of reionisation; empirical modelling of galaxy–halo connection; radio and mm-wave astronomical instrumentation and observational techniques.

*Experience (selected):*

**CITA–Dunlap Institute Research Fellow**, University of Toronto Nov 2020–present

- COMAP: signal forecasting, analysis and interpretation of early science results
- TIME: part of site team for 2021–22 season; instrument support, analysis of calibration and commissioning observations, simulations of signal observations
- CCAT-prime: continued work on [C II] halo models and survey projections
- Advisory discussions on simulations, analysis with SPT-SLIM, EXCLAIM teams

**Research assistant w/ Prof Sarah Church**, Stanford University Mar 2015–Sep 2020

- Argus: commissioning of W-band focal plane array for Green Bank Telescope
- COMAP: signal forecasting, commissioning data analysis, and miscellaneous hardware/software tasks for dedicated  $z \sim 3$  CO line-intensity mapping instrument
- CCAT-prime: signal and sensitivity forecasting for [C II] line-intensity survey

**Student researcher in Gravity Group**, Princeton University *intermittent, 2011–2014*  
(w/ Prof Suzanne Staggs 2011–2012, w/ Prof Lyman Page 2013–2014)

- Demonstration of microwave SQUID multiplexer in basic cryogenic operation
- Measurement of MuSE bolometer frequency-dependent impedance
- Recording and analysis of SQUID bias noise in ACTPol lab tests

## TEACHING AND MENTORING (SELECTED)

---

### Summer undergraduates mentored at Toronto:

- Patrick Horlville (McGill, CITA SURF; co-supvr. w/ Prof J R Bond) May–Aug 2022
- Ishika Bangari (U of Toronto; SURP 2021 poster hon. mention) Jun–Aug 2021
- Lisa Nasu-Yu (U of Toronto; co-supervised w/ Prof Abigail Crites) Jun–Aug 2021

### Stanford teaching assistantships:

- Electricity, Magnetism, and Optics Lab (PHYSICS 24) Jan–Mar 2019
- Introduction to Modern Physics (PHYSICS 70) Sep–Dec 2016
- Electricity and Magnetism Lab (PHYSICS 44) Mar–Jun 2015

## ACADEMIC PRESENTATIONS (SELECTED)

### Contributed talks and department seminars:

—Caltech, Dept of Astronomy, Astronomy Tea talk	Oct 2022
—Cornell University, Dept of Astronomy, Galaxy lunch	Sep 2022
—McGill University, CMB+EoR workshop	Jul 2022
—Stanford University, KIPAC Tea talk	Jun 2022
—AAS 240th Meeting (Pasadena, California)	Jun 2022
—CASCA 2022 Annual General Meeting (University of Waterloo, <i>virtual</i> )	May 2022
—New York University, CCPP Astrophysics Seminar	Apr 2022
—Annual CCAT-prime/FYST Collaboration Meeting (Cornell/Köln, <i>virtual</i> )	Apr 2022
—Flatiron CCA, Tri-State Cosmology × Data Science	Apr 2022
—University of Chicago, KICP Line-intensity Mapping Workshop ( <i>virtual</i> )	Jun 2021
—University of Toronto, CITA seminar	Nov 2020
—CfA, Harvard & Smithsonian, Special SMA talk	Dec 2019
—Johns Hopkins University, Dept of Phys & Astro, Cosmology/HEP seminar	Oct 2019
—Cornell University, Dept of Astronomy, Astrophysics lunch	Oct 2019
—Princeton University, Dept of Astrophysical Sciences, Cosmology seminar	Oct 2019
—Aix-Marseille Université, ‘L2S2’ (Lines in the LSS) conf. ( <i>two talks</i> )	Jul 2019
—Aspen Ctr for Phys, Cosmological Signals from Cosmic Dawn to the Present	Feb 2018
—Johns Hopkins University, Second Annual Intensity Mapping Workshop	Jun 2017

### Invited talks:

—SPT-SLIM collaboration meeting (KICP, University of Chicago)	Jul 2022
—McGill University, Cross-correlations with CHORD Workshop ( <i>virtual</i> )	Oct 2021
—Annual CCAT-prime Collaboration Meeting (University of Waterloo, <i>virtual</i> )	Apr 2020
—CCAT-prime / Chile Workshop (Cerro Calán)	Apr 2019

### Posters:

—University of Virginia, Radio/mm Astrophysical Frontiers in the Next Decade	Jun 2019
--	----------

## OUTREACH AND SERVICE (SELECTED)

<b>UofT Astronomy Community Climate Committee</b>	2022–present
<b>UofT DADDAA Graduate Admissions Committee</b>	2021–2022
<b>CITA National Jamboree co-organiser</b>	2021, 2022
<b>UofT Astronomy and Space Exploration Society, ‘Star Talk’ speaker</b>	Aug 2021
<b>Stanford Physics Equity and Inclusion Committee</b>	2017–2019
<b>Kavli Institute for Particle Astrophys. and Cosmology (KIPAC) Outreach</b>	2015–2019
<i>Referee service: ApJ (2020), MNRAS (2022)</i>	

## AWARDS AND HONOURS

<b>Vincent and Beatrice Tremaine Postdoctoral Fellowship</b> , CITA, U of Toronto	2022–2023
<b>CITA &amp; Dunlap Postdoctoral Fellowships</b> , University of Toronto	2020–2023
<b>KIPAC Giddings Graduate Student Fellowship</b> , Stanford University	2014–2015
<b>Allen G. Shenstone Prize in Physics</b> , Princeton University	2014
<b>Joseph Henry Fellowship &amp; Treiman Fellowship</b> , Princeton University	2013
<b>Kusaka Memorial Prize in Physics</b> , Princeton University	2012, 2013

## LIST OF PUBLICATIONS, PREPRINTS, AND PROCEEDINGS

---

### **First-author, refereed:** (*in reverse order of preprint announcement*)

1. Chung, D. T., ‘Leveraging cross-correlations and linear covariance-based filtering for line-intensity map reconstructions at linear scales’, 2022, submitted to PRD [arXiv:2209.07500]
2. Chung, D. T., ‘Exploration of 3D wavelet scattering transform coefficients for line-intensity mapping measurements’, 2022, MNRAS, in press [DOI: 10.1093/mnras/stac2662]
3. Chung, D. T., ‘Cross-correlations between mm-wave line-intensity mapping and weak lensing surveys: preliminary consideration of long-term prospects’, 2022, MNRAS, 513, 4090 [DOI: 10.1093/mnras/stac1142]
4. Chung, D. T. et al. (COMAP Collaboration), ‘COMAP Early Science: V. Constraints and Forecasts at  $z \sim 3$ ’, 2022, ApJ, 933, 186 [DOI: 10.3847/1538-4357/ac63c7]
5. Chung, D. T. et al. (COMAP Collaboration), ‘A model of spectral line broadening in signal forecasts for line-intensity mapping experiments’, 2021, ApJ, 923, 188 [DOI: 10.3847/1538-4357/ac2a35]
6. Chung, D. T., ‘A partial inventory of observational anisotropies in line-intensity mapping’, 2019, ApJ, 881, 149 [DOI: 10.3847/1538-4357/ab3040]
7. Chung, D. T., Viero, M. P., Church, S. E., & Wechsler, R. H., ‘Forecasting [C II] line-intensity mapping measurements between the end of reionization and the epoch of galaxy assembly’, 2020, ApJ, 892, 51 [DOI: 10.3847/1538-4357/ab798f]
8. Chung, D. T., Viero, M. P., Church, S. E., Wechsler, R. H. et al. (COMAP Collaboration), ‘Cross-correlating Carbon Monoxide Line-intensity Maps with Spectroscopic and Photometric Galaxy Surveys’, 2019, ApJ, 872, 186 [DOI: 10.3847/1538-4357/ab0027]
9. Chung, D. T., Li, T. Y., Viero, M. P., Church, S. E., & Wechsler, R. H., ‘On estimation of contamination from hydrogen cyanide in carbon monoxide line intensity mapping’, 2017, ApJ, 846, 60 [DOI: 10.3847/1538-4357/aa8624]
